Uses

Industrial / commercial

Description

Efficient, energy-saving alternative. Reduced maintenance costs, better efficiency compared to the traditional linear fluorescent fixtures.

It can be used in a large variety of industrial, commercial and office applications.

The optimum solution for lighting systems thanks to lower installation costs.

Advantages

Easy to assemble: all in a box, installation without additional tools. Time and manpower, packaging waste and complexity are reduced.

Flexible solution, multiple angles option.

Option to integrate an emergency kit, DALI pre-equipment or dimming

Fitting

White, black or silver fixture body, modular, modern and simple design.

Optics

Diffuser with the ability to provide multiple angles.

General Information

Assembly type: suspended / surface-mounted

LED type: SMD

Voltage: 200-240 VAC / 50 Hz

Operating temperature: -10 / +40°C

UGR: <19

CRI: >80

PF: >0.95

Angle: 30 / 60 / 90 / 120 degrees, asymmetrical or double-asymmetrical
